• The Senior Farmers Market Nutrition Program and Farmers Market Nutrition Program are both administered by the USDA.
  ▪ The SFMNP was created in the 2002 Farm Bill
  ▪ The FMNP was created in 1992 and operates similarly to the SFMNP. This program does require the state to provide a 30% match of administrative funds.

• The Senior Farmers Market Nutrition Program serves low income adults over the age of 60 while the Farmers Market Nutrition Program serves women and children receiving WIC program benefits.

Functions of the State and Local Agencies

- Write the State Plan!
- Identify eligible participants for both programs.
- Process applications, and distribute checks.
- Provide nutrition education.
- Promote both programs through PSAs, social media, online ads, outreach to social services and extension offices.
• $133,440 dollars went directly to checks for food and produce bundles for seniors.
• Over 5,626 Seniors received checks or participated in the bundle program in far Western Kansas.
• 292 farmers authorized to accept checks.
• Local Agencies covering 53 counties distributed checks to low-income seniors.
56% of checks rejected in 2018 were rejected due to Missing/Illegible Vendor Stamp or Missing Signature. This is an improvement over 2017 but we can do better!

Remember! Checks are only valid in the year they are issued, between June 1 and November 15. 34% of our rejections in 2018 were checks that were past their “stale” date. If you find checks from a previous years program, please do not cash them! The rejections cost you (and the program) banking fees!
Check Processing Pattern in 2018

• It’s no surprise that July (6,496 checks) and August (6,849 checks) are our top two redemption months, followed up by October (4,487 checks).

• 1,605 checks were redeemed in November of 2018 compared to 2,996 in November 2017. I REALLY appreciate you regularly depositing checks throughout the season!
